

COMPETITION MANAGEMENT

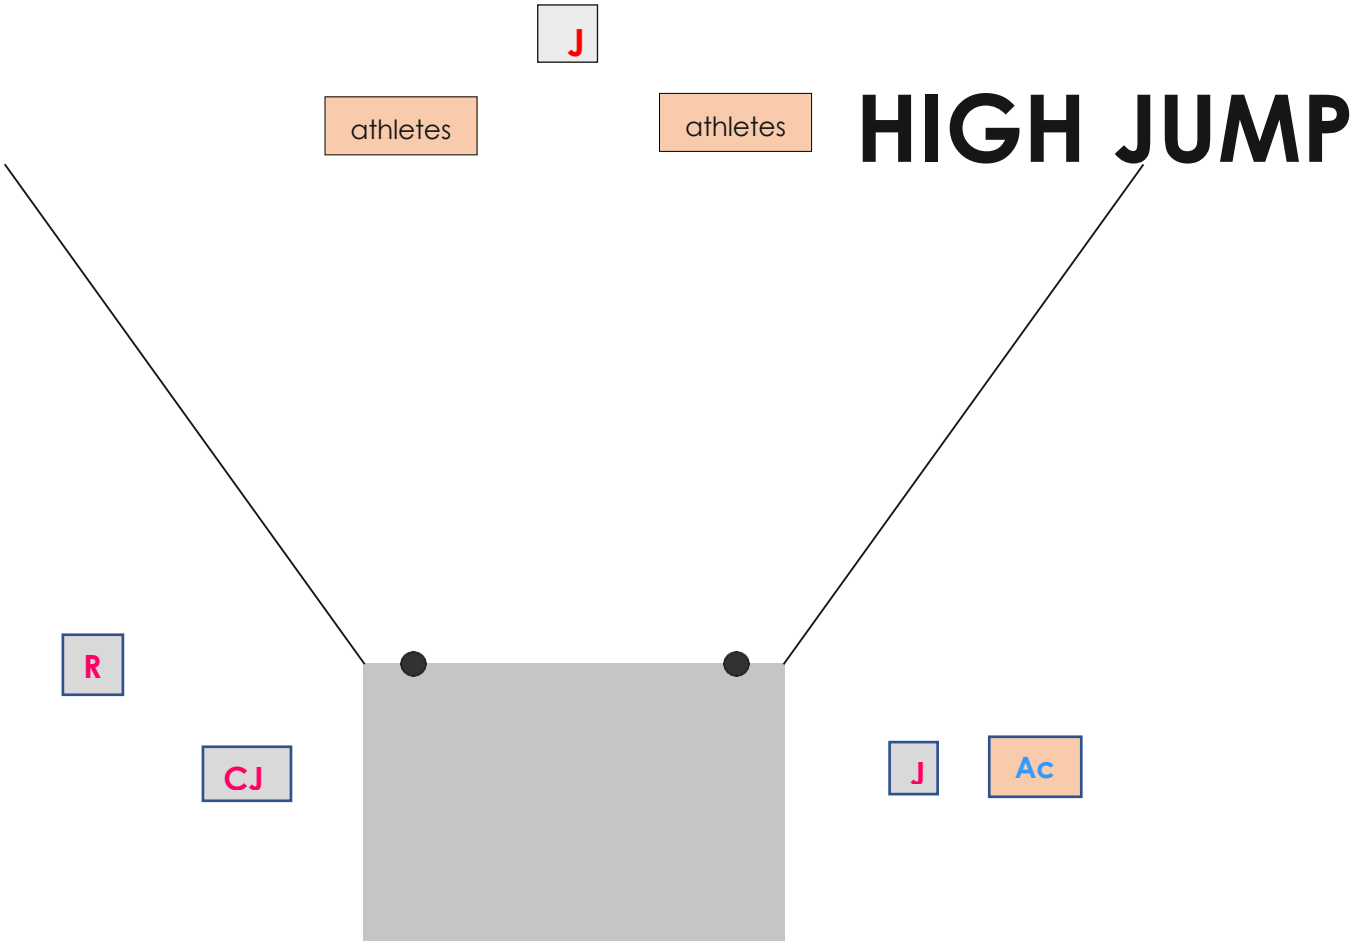

Infield Management Guidelines – Officials –
Appendix 1 - Examples of layouts

May 2022

Notes:

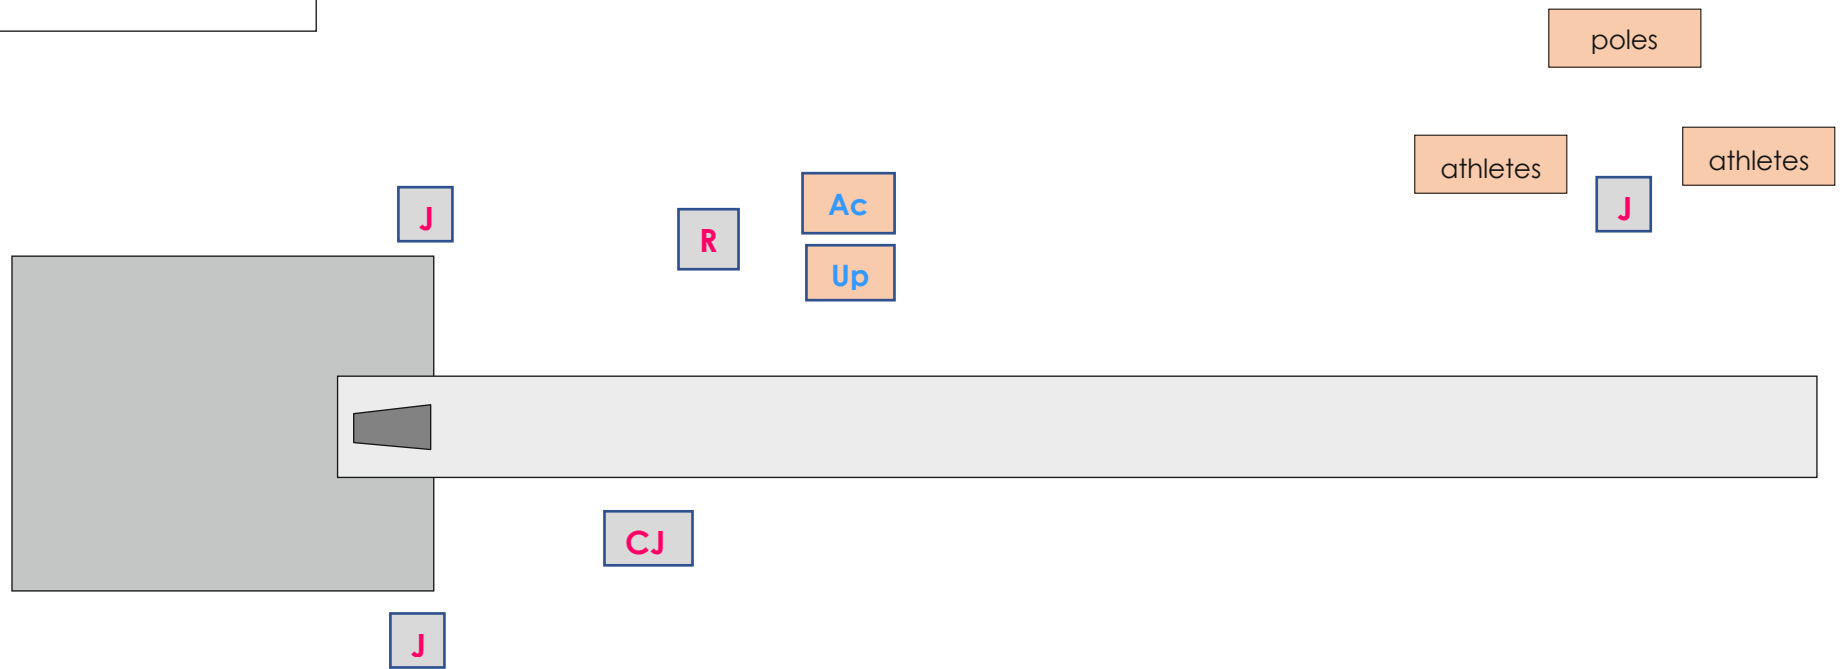

- The layouts presented below are based on the requirements set out in the Infield Management Guidelines. But of course, they are to be adapted, as per the specific venue layout.
- The layouts below include ONLY officials present in the infield during their respective disciplines. All the other officials, who are located outside of the infield, are described in the Guidelines itself.
- The layouts below are based on the assumption that the technical means allow the secretary and/or the data entry judge to be located outside of the infield.
- The layouts below are based on the assumption that the technical means allow the countdown clock being managed remotely.
- In case the technical means allow the countdown clock being integrated into the Field Event Boards (FEBs), the clock itself is to be removed from the infield layouts.
- The positions of the FEBs, LED ruler board for LJ/TJ and other major pieces of equipment is not included into the layouts below. Those positions are to be confirmed in the discussion between the Technical Delegates, Host Broadcaster/TV Producer, Event Presentation and Technologies service provider before each event. Taking into account the timetable, the venue layout and other related factors.
- TV cameras are not included into the layouts below. They are to be added into the layouts of each individual event, once the camera plan draft is available. In case there are any potential obstructions by the TV cameras to the competition process, the Technical Delegate is to discuss with the Host Broadcaster/TV Producer accordingly.
